## **WHAT SEVERE SERVICE MEANS TO OUR CUSTOMER**

Feature for feature, there are no finer quality Tractor Loader Backhoe attachments available. Look for the features that assure you years of trouble free service:

- Heavy-duty industrial hydraulics
- Hardened pins and bushings
- Grease fittings at all pivot points
- Alloy steel body plates
- High carbon cutting edges
- Gussets at all stress points
- Fully welded seams
- Abrasive resistant steel at all ground contact points

These may seem like little things, but it is this attention to detail that assures Attachments International's customers years of satisfied use.

**Backhoe attachments from Attachments International set new standards for the industry.**

## **BACKHOE QUICK COUPLER**

- Geometric Balancing allows bucket to follow its designed geometric curve.
- T-1 steel construction.
- Specialty couplers allow attaching of all brands of buckets.

## **MAGNUM SERIES**

**SEVERE SERVICE BUCKETS THAT CAN BE USED WITH OR WITHOUT THE BACKHOE QUICK COUPLER**

### **GENERAL PURPOSE BUCKET**

- Fully welded seams, welded gussets in all stress areas.
- Hi-Tensile steel throughout, hardened cutting edges, side cutters and wear plates.

## HIGH CAPACITY SAND BUCKET

- Increases production 50%.
- Decreases operating cost 30%.
- Designed specifically for gravel, sand, light soils, ash, loams, any conditions moving lighter materials.
- High capacity and light weight, high strength alloy steel allows operator to use the entire power of the machine.
- Round bottom for top loading trucks and flat bottom for basements and trenching.

## ROCK BUCKET

- Designed for the toughest jobs.
- Hi-strength steel throughout.
- Designed for rock, ditches, caliche, frost, etc.
- Shown with optional ripper.

## CEMETERY BUCKET

- Cuts 90° corners.
- All widths available.
- Makes perfectly square holes.

## PAVEMENT REMOVAL BUCKET

- The only bucket designed to demolish concrete and asphalt.
- Special design allows you to cradle and load all uneven sized material.

## “V” DITCHING BUCKET (TRAPEZOIDAL BUCKET)

- Cuts ditches in one pass.
- All slope angles and bottom sizes available.

## ASPHALT CUTTER

- The strongest cutters in the industry, 7" cutting depth.
- Quick couples in less than 1 minute to give straight, clean cuts in asphalt prior to digging.
- Bucket mount or quick coupler, 12 models.

## ROCK/FROST RIPPER

- Single and triple shank rippers available.
- The most efficient method to break up caliche, shale, limestone, rock, and frost.
- Replaceable teeth.

## BUCKET RIPPER

- Instant mount to bucket.
- No interference with normal bucket operation.

## DITCHING AND LEVELING BUCKET

- 36" to 72" wide.
- The ideal tool for ditching, sloping, reclamation, and precision leveling jobs.
- Shown with hydraulic tilt.
- Hydraulic power tilt available 15° right and left angle.

## CRIBBING BUCKET

- Heavy duty buckets for narrow trenching jobs and digging in tight quarters.
- 24" to 48" digging depth.

## BACKFILL BLADE

- All widths available.
- The fastest leveling tool available.
- Hydraulic power tilt available 15° right and left angle.

## BARREL HANDLER

- Handles all hazardous waste, chemicals, oils, and petroleum.
- 180° rotator standard.
- 360° rotator optional.

## POLE HANDLER

- Rotates 90° and opens 36".
- Handles poles 1,000 lb. and 40' long.

## HEAVY DUTY CONTRACTORS GRAPPLE

- Designed for land clearing, raking, stacking, rehandling scrap, demolished and loose material.

## SEVERE SERVICE THUMB

- Serrated teeth give exceptional gripping strength.
- High strength alloy steel gives years of service.

## FROST/ROCK BUCKET

- T-1 Steel Construction for the most severe conditions.
- Ideal for frost, rock, shale and coral.
- Digs flat or V-bottom trenches.

## Loader attachments from Attachments International set new standards for the industry.

### FRONT LOADER QUICK HITCH

- Hydraulic or manual locking system.
- Zero loss of breakout force.
- Designed for severe service.

HEAVY DUTY SEVERE SERVICE  
LOADER ATTACHMENTS THAT CAN BE  
USED WITH OR WITHOUT THE QUICK HITCH.

### HEAVY DUTY BUCKET

- 1-1/3, 1-1/2 and 2 yard general purpose.
- Drilled for bolt-on cutting edge.
- 2-1/2 and 3 yard snow buckets.
- 4 yard wood chip buckets.
- 3 yard snow bucket shown.
- Shown with fold-over bucket forks.

### MATERIAL HANDLING FORKS

- Quick Couple or pin-on in place of bucket.
- Adjustable 6" to 72".
- Drop forged steel forks.
- 4,000, 6,000, and 8,000 lb. capacities available.

## DOZER BLADE

- Heavy duty dirt blade.
- 35° angle - left and right.
- Adjustable skid shoes.
- Bolt-on reversible cutting edge.
- Snow blade extensions and moldboard.
- Shown with optional snow moldboard.

## ROCK SORTING BUCKET

- Hardened steel tines.
- Optional spacing for various sizes.
- Ideal for rubbish and scrap removal.

## JIB BOOM

- Fixed length booms.
- Adjustable booms to 12' in length.

## 4-IN-1 BUCKET

- Severe Service Bucket.
- Loading, dozing, clam.
- Shown with optional forks, also available on all buckets.

## FRONT-LOADER GRAPPLE

- Quick couples in less than 2 minutes.
- High tensile steel tines.

## REPLACEABLE TOOTH BARS

- Quick change system gives aggressive teeth in 1 minute.
- Instantly removable for those small finish jobs.
- Shown with optional grapple, available for all buckets.

## REPLACEABLE CUTTING EDGES

- Double beveled reversible.
- Thru-hardened steel.

## LIP MOUNTED FORKS

- Available in capacities from 1,000 to 8,000 lb.
- Mount both forks in 1 minute and remove for storage just as easily.
- No welding or brackets to mount.

## HEAVY DUTY SNOW PLOW

- Fast, efficient snow removal.
- Designed for high speed plowing.
- Bolt-on reversible cutting edge standard.

## TOP MOUNTED FORKS

- Attach and detach in seconds with adjustable fork spacing.
- Seven models available with load capacities from 2,500 to 20,000 lbs.
- Forged forklift steel assures years of service.

## BALE SPEAR

- Ideal for large round or square bales.
- Spears are made of quenched and tempered steel.
- Field replaceable.
- Optional grapple with spikes available.

## SIDE DUMP BUCKET

- Designed for dumping of material in hard to maneuver areas.
- Allows side dumping into trenches or hoppers.

## SANDBAGGER BUCKET

- 3/4 capacity bucket discharges left or right.
- Heavy duty belting.
- Discharge speed is fully adjustable.
- All wear surfaces hardened steel.
- High tensile steel wrapper.

## CONCRETE PLACEMENT BUCKET

- High strength steel with alloy armor plate at wear points.
- Designed to carry all slurry.
- Optional chute allows concrete placement in hard to reach places.

## SNOW BLIZZARD

- Removes snow 200% faster than large snow buckets.
- High strength steel throughout.
- Reversible hardened cutting edge.
- Skid shoes standard.

## STRAIGHT ARM CLAMP

- Originally designed for recycling operations.
- Makes simple work of moving odd shaped objects.
- Various arm designs.
- Optional forks available.
- Clamp opening adjustable 12-72 inches.
