Layout

Available in any size and in a variety of layouts, Henry Building Systems clear span structures allow for maximum use of every space. Whether one business with different units or a variety of independent businesses Henry Building Systems has a layout specifically for your needs.

Multiple Spaces

Customizable for any business from retail to professional offices and working shops. From open store fronts, extra large door openings, multiple garage ports, functionality and manufactured with superior building materials let your Henry Building last a lifetime.

Customer Appeal

It's all about appearances. With several exterior options and a customizable interior, your Henry Building is designed to fulfill your businesses ambiance and set the tone for customers

Henry Building Systems is the leading manufacturer of clear span buildings. With over 35 years in the steel building industry, Henry Building Systems has the experience necessary for your next building project. Commercial, industrial, retail, agricultural, residential, or storage, Henry Building Systems offers both pre-engineered and custom designed buildings. Not only do Henry Buildings look great, and last a lifetime, they are the most energy efficient and the strongest buildings ever offered by any manufacturer, even exceeding International Building Code requirements.
